

Harold's House of Hotdogs Project Plan

Contents

Harold's House of Hotdogs Project Plan	1
V1: Simple Script	1
V2: Functions	1
V3: OOP Single File	1
V4: OOP Refactor to Separate Files	1
V5: Parallel Lists	1

Project plan for adding features to our program.

V1: Simple Script

V2: Functions

V3: OOP Single File

V4: OOP Refactor to Separate Files

V5: Parallel Lists

Features to implement:

- Parallel lists to store menu items and prices
- Type hinting

- Docstrings and comments
- Use Properties to store attributes in Harold's class
- Start to implement MVC design pattern (Model View Controller)
